THE 1949 SPRING TOUR

The Choir left Dana College on March 4 for an extensive 5500-mile concert tour of western states. Concerts were given in Arizona, California, Colorado, Kansas, Oklahoma, Oregon, and Utah. During the three-week tour many cities, which were visited on a similar tour by the 1936 Choir, were included in the itinerary.

This year's program included selections from the richest and deepest compositions of Palestrina, Bach and their contemporaries and choral music from the liturgy of the Russian Church. Special arrangements of several familiar Danish hymns and selections from modern American composers of choral music completed the sacred program. The Choir was very well received wherever it went, both by music critics and the appreciative audiences.
