

Meteorology. This course is introduced for the purpose of encouraging a closer acquaintance with the laws affecting climatic conditions.

Physics. By a careful study of this course the student acquires a thorough knowledge of the energizing forces of the universe. Experimental work is emphasized from the beginning. The student is required to put in a certain number of hours per week in the laboratory, and to keep notes of his experiments. For advanced students, special work is offered in electricity and magnetism and their applications.

Botany. The course comprises a study of the structure, principles of classification, and adaptation of plants. Laboratory and field work is required. Each student is required to collect, mount, and fully describe 75 plants.

Zoology. In the elementary course the principles of classification, general relationship, morphology of animals, conditions of life, and fundamental physiological phenomena are studied.

The advanced course is devoted more particularly to dissection and study of typical animals as well as studies in biology and embryology. The laboratory is furnished with necessary materials.

Chemistry. The study of general chemistry is aided by a large number of experiments, and supplemented by lectures on the more important subjects.

Qualitative Chemistry. This consists chiefly of laboratory work. The student's attention is constantly drawn to the chemical reactions and properties of substances on which the scheme of analysis is based, and he is required to give the reasons for every step in the analysis with the reactions involved.

Quantitative Chemistry. The aim of this course is to secure a broad knowledge of the subject, to develop judgment in the application of means to ends, careful attention to details, and skill in manipulation. The work consists mainly in the study of the standard gravimetric and volumetric methods.

In the earlier part of the course a number of the common metals and acids are determined gravimetrically after which volumetric work is taken up, consisting of the preparation of standard solutions of acids and alkalies, carbonates, and mixtures of alkalies and carbonates. A number of ores and commercial products are analyzed.

Organic Chemistry. The work consists of lectures and recitations on the compounds of carbons, methods of preparation, constitution, properties, and classification.

Geology. This course includes the study of historical geology, showing the development of the land forms, animal and vegetable life; dynamical geology, mineralogy, and paleontology.

GYMNASTICS.

Physical Training. A commodious gymnasium furnishes excellent accommodations for physical training. It contains good modern accommodations.

The courses offered should produce the following results: better health, a stronger and a more symmetrically developed body. A frail body is a poor servant of the mind. A normal physical basis for the mental faculties is necessary for the best mental growth.

All students are required to take gymnastics, except when excused for special reasons. Before entering the classes each student must take a physical examination. Those who are physically defective are given exercise adapted to their needs.

Two courses are open to young men:

1. Beginning Class. Sitting up exercises, free hand work, light and heavy apparatus work, and gymnastic games.

2. Advanced Class. Dumb bells, military drill, basket ball, and athletics.

The course open to young women consists of light work with dumb bells, Indian clubs and wands, Swedish gymnastics, fancy marchings, basket ball, hoop ball, and other games.

The College has good tennis courts and base ball grounds. In pleasant weather these afford good opportunities for outdoor recreation. Athletic contests are held every spring.

PENMANSHIP AND DRAWING.

Penmanship. The system used gives movements leading to easy and graceful execution and form. Legibility, rapidity, and beauty are the ends sought.

Drawing is taught in several departments of the school. The course includes plain constructive and geometrical drawing—from objects and memory; perspective, both linear and aerial; and art drawing—with and without models.

For observations on Theoretical, Commercial, and Normal school branches, see under their respective departments.

THE MUSIC DEPARTMENT.

This department offers comprehensive courses in vocal, instrumental, and theoretic music. The arrangement of the courses secures a complete mastery of the branches undertaken, and cultivates in the student a high standard of musical taste.

The aim is to make this a real musical education. The methods are the same as used in the famous conservatories of the East, while the expenses are not more than one third as great. The department trains teachers, organists, choirleaders, and music lovers in general.

Free instruction is given in choir and chorus work; private lessons extra. Piano rent is two dollars per term; Reed organ one dollar.

COURSES OF INSTRUCTION.

- | | |
|-------------------|--------------------------------|
| 1. <i>Piano.</i> | 4. <i>Voice Culture.</i> |
| 2. <i>Organ.</i> | 5. <i>Musical Composition.</i> |
| 3. <i>Violin.</i> | 6. <i>History of Music.</i> |

Piano. 1. Finger exercises, scales and rudiments of music. Easy sonatinas and thorough practice in major and minor scales. 2. Studies in position, tension, motion and touch. Chords and arpeggios. Sheet Music. 3. Study of musical terms. Accent and Expression. Sight reading. Memorizing and phrasing. Transposition. Music from the best composers.

Organ. Explanation of pitches, of stops, choir and accompaniments. Marches, voluntaries and studies of the best composers.

Voice Culture. 1. Lessons in breathing. Voice and tone production. Intervals. Drills and Diatonic Scale in slow movement. Easy songs. Sight reading. 2. Lessons in major and minor intervals. Arpeggios. Chromatic Scale. Ballad. Classic writers, and sacred music.

Elementary Singing. A class for instruction in general singing will be organized at the beginning of the Winter Term, open without charge to all students.

The College Chorus. Students who are well advanced in the rudiments of music are admitted to the College Chorus without charge. Drills in chorus work, glees, and oratorios will be given. The Chorus will render public recitals from time to time.

Dana College Glee Club is an organization comprising eight of the best male voices in the school. The singers are selected from the advanced class only.

Elocution is considered now-a-days an absolute requisite for a finished education. For this reason the school has made arrangements for a very thorough course in this accomplishment.

The following subjects are taught:

Vocal culture, articulation, inflection, quality of tone, pitch, force, time, volume, power, pronunciation, study of recitations, gestures, oratory, etc.

HØJSKOLEN.

Religion. Det er Skolens Formaal at øve kristelig Indflydelse paa de unge, der samles her. Derfor ledes hele Undervisningen i en kristelig Aand, og det er vort Haab, at mange unge maa faa aandelig Velsignelse under deres Ophold her.

Da det er en Kendsgerning, at den dansk-amerikanske Ungdoms kristelige Undervisning og Oplysning er meget mangelfuld, vil Skolen gerne raade Bod herpaa ved at give saa megen Undervisning i Bibelkundskab og kristelig Lære som mulig for de Elever, som maatte føle Lyst og Trang dertil.

Dansk Sprog. Blandt de Kundskabsfag, som Højskolen arbejder med, indtager det danske Sprog den fornemste Plads. Vi anser det for at være af største Betydning, at Ungdommen bliver i Stand til at behandle Modersmaalet med Færdighed, og at Lysten vækkes hos den til at faa Del i den Skat, som den danske Literatur har i Eje.

Og skal vi beholde Ungdommen i vor danske Kirke, maa den i større Maal end hidtil sættes i Stand til at modtage aandelig Paavirkning paa Modersmaalet. Thi det er en Erfaring, man meget ofte gør, at ligesom de allerfleste, der indvandrer hertil, kun naar til at bruge det engelske Sprog i meget ringe Udstrækning, saaledes lærer deres Børn kun meget ufuldkomment Faders og Moders Sprog at kende. Her har Højskolen en vigtig Opgave.

Engelsk Sprog. Næst efter Dansk anses det engelske Sprog for det vigtigste for Højskoleeleven. Der undervises paa det grundigste i engelsk Læsning, Stavning og Grammatik. Disse Fag er absolut nødvendige for en fuldstændig Forstaaelse af Sproget. Foruden disse Fag arbejdes der med engelsk Stil for at indøve Eleverne i Sprogbrugen og Retskrivningen. Saadanne, som nyliger kommen til Landet, vil her kunne lære det engelske Sprog saa hurtigt og tilfredsstillende som muligt. Undervisningen

ledes af Lærere, der har mange Aars Erfaring i at lære Begyndere at tale, læse og skrive det engelske Sprog.

Historie og Literatur. Da vi anser det for et værdifuldt Led i et Menneskes Udvikling at have Førstaaelse af Historie og Literatur, betragter vi Arbejdet hermed som Højskolens fjerde Hovedopgave. Særlig lægger vi Vægt paa at føre de unge ind i Danmarks og Amerikas Historie og Literatur.

Bibelklasser vil altid forefindes for saadanne, der har Lyst og Tid til at deltage.

Skolen forbeholder sig Ret til at ændre og forøge dette Kursus efter som Nødvendigheden maatte kræve.

Som Lærebøger benyttes:

Den hellige Skrift paa Dansk og Engelsk; det ny Testament paa Græsk (Gebhards Udgave af Tischendorfs Tekst); Kommentarer: Til det gamle Testament: Keil & Delitzsch og Lange; til det ny: Schat Petersen, Rørdam og Godet.

I Dogmatik bruges: Krogh Tonning: Den kristelige Troslære og H. Martensen: Dogmatik. Som Haandbøger anbefales: Luthardts Compendium og H. Schmid: Doctrinal Theology of the Ev. Luth. Church, samt Konkordiebogen.

Som Lærebøger i Kirkehistorie bruges Fr. Nielsen: Kirkehistorie; Koch og Rørdam: Fortællinger af Danmarks Kirkehistorie; og J. L. Neve: A Brief History of the Lutheran Church in America.

Endvidere benyttes H. Scharlings Etik, Gisle Johnsons Dogmehistorie, H. Ussings Missionshistorie, Ph. Schaffs Theological Propædeutic, Grauls Symbolik og Vinets Pastoralteologi.

GENERAL INFORMATION.

ACCOMMODATIONS.

The Residences. The gentlemen's and ladies' dormitories are conveniently located. The rooms are heated by steam; each is furnished with bed, table, and chairs; sufficient bedding is furnished, but prospective students are advised to bring an extra comforter or blanket. Students desiring to room alone will be charged extra for heat and light.

The Boarding Hall is conducted by the school for the purpose of meeting the requirements of the students in the best manner. The board is wholesome and abundant. The teachers residing in the school eat from the same table with the students.

The Library. During the year the library has been enlarged by the addition of quite a number of reference works in the department of literature, theology, history, economics, and sciences.

Connected with the library is a reading room. In it the leading publications in the English, Danish, and German languages are found, as well as many local papers.

Contributions to the library are earnestly solicited. They should be sent to the Librarian of Dana College and Trinity Seminary.

The Laboratory is equipped with the apparatus necessary for class experiments and for the individual work of the students.

EXPENSES.

The school year comprises 35 weeks. The total expenses of a student for tuition, board, heat, light, and room is \$4.00 per week or \$16.00 per month of four weeks, payable in advance. A reduction is given students paying full rates and attending the whole year. The total expense

for the whole year is \$140.00. From this sum the reduction of \$10.00 is made, provided the rules for advance payments are complied with. To this should be added the cost of the student's own washing and also the cost of books, stationery, etc. Students paying for tuition only are charged \$40.00 for the year.

REBATE ON TRANSPORTATION.

Students living more than 200 miles from Blair, and who shall stay at least 16 weeks, will be entitled to a rebate of one half the distance over and above 200 miles, coming to school. Take receipt from station agent, stating distance and amount paid.

	BOARD	ROOM	TUITION	TOTAL

MATRICULATION FEE.

A matriculation fee of one dollar shall be paid by each student when he enters the school for the first time.

INDEMNITY FEE.

An indemnity fee of one dollar is required of each student. This is held as security to insure prompt payment of damage which may have been done to room, furniture, etc. This money, or what may be left of it after deducting damages, is returned to the depositor upon leaving school.

GRADUATION FEE AND DIPLOMA.

The cost of diplomas in all departments is one dollar.

MUSIC DEPARTMENT.

Piano, 24 Lessons per term.....	\$10.00
Organ, 24 Lessons per term.....	10.00
Voice Culture, 24 Lessons per term....	10.00
Private Lessons in Elocution, per term	4.50

RENT OF INSTRUMENTS.

Piano rent, one period daily per term	\$2.00
Reed Organ rent, same time as above	1 00

GRADUATION AND DEGREES.

The Collegiate Course lead to the degrees of Bachelor of Arts and Bachelor of Science. In no case will these degrees be conferred except upon completion of the prescribed course, and upon passing satisfactorily the final examinations. Diplomas are granted in all other departments upon having passed satisfactory examinations.

MORAL TRAINING IN THE SCHOOL.

This is a Christian school and every effort is made to care for the moral and spiritual welfare of all the students. A high moral culture is secured by a thoroughly Christian management. A pleasing unanimity of action pervades the entire atmosphere, and Christian love and obedience do for the school what severe rules never accomplish.

CHAPEL EXERCISES.

Promptly at 9:30 a. m. the bells announce chapel exercises which consist of song, prayer, and expounding of God's word.

All students are expected to attend; here they find the strength so needful for the day's work.

CHURCH AND RELIGIOUS SOCIETIES.

As this is a Lutheran school, all students are expected to attend regularly the local church of the United Danish Evangelical Lutheran Church, provided no other preference is stated to the president.

COLLEGE SOCIETIES.

There are several regularly chartered literary and religious societies in the school. These are all in a flourishing condition, and in their way do much towards making college life pleasant and profitable.

THE DANA COLLEGE HESPERIAN

is exclusively English. Its bi-weekly programs comprise

music, debate, and literary exercises. Special programs are rendered from time to time.

DANNEBROG,

as indicated by the name, is a Danish society. Its aim is to cultivate a taste for Danish literature and song. Like its sister society, "Dannebrog" gives bi-weekly programs comprising song, literary work, and debate.

STUDENTERFORENINGEN

is a religious society. It holds weekly devotional meetings to which all students are cordially invited.

TRIN. SEM. HEDNINGEMMISSIONSFORENING

is a society, organized with a view of furthering the foreign missions of our church. During the past year it gave \$100 to these missions.

THE ATHLETIC ASSOCIATION.

The Dana College Athletic Association has been chartered by the Faculty to play tennis, base ball, hoop ball, basket ball, and such other games as shall prove of benefit to the members of the association.

ENDOWMENTS AND BEQUESTS.

The school authorities cannot but rejoice in the progress of the school during the seven years of existence as Dana College and Trinity Seminary.

Good work has been done in every line, and friends of the school are beginning to look forward to a time when a grateful people and church will appreciate more fully the work their school is doing for them, and more liberally than now lend encouragement and aid.

The following is a form of bequest which may be used by persons desiring to leave property or money to the College:

I give, devise, and bequeath to the Board of Trustees of Dana College and Trinity Seminary, an institution of learning established by the United Danish Evangelical Church in America, and located at Blair, Washington County, Nebraska, the sum of Dollars, (or if real estate, give description of the property) for the general uses of said college.

All funds for the institution should be sent to the President.

TO PROSPECTIVE STUDENTS

and particularly to our Danish Youth in America are the following words addressed:

It is in your interest to attend the institution that can do you the most good, that is best able to aid countrymen in overcoming the perplexities so often handicapping young foreigners in this country, that fits them for the highest success in life, and does all in its power to attain the same.

We believe Dana College and Trinity Seminary is that institution. The men in charge of the school are devoting their entire life to the culture of the Danish people in America, and will leave nothing undone to have this school retain its reputation as the Leading Danish School in America.

GENERAL HINTS.

The school year begins October second, and is divided into three terms: A Fall term of two months, a Winter term of four months, and a Spring term of three months.

If you should wish information not given in this Catalogue, address the President, and he will cheerfully advise you on any point of mutual interest.

While the faculty urge the importance and advantage of each student entering the school at the beginning of the school year or at the opening of a new term, yet classes adopted to your personal need can be entered at all times of the year.

CATALOGUES

will be sent free on application to the President, Rev. J. P. Jensen, Dana College, Blair, Nebr.
