GENERAL STATEMENT.

Dana College and Trinity Seminary is owned and supported by The United Danish Evangelical Lutheran Church in America. It is a denominational institution and as such aims to serve, primarily, the interests of the Lutheran Church, but its doors are open to all who desire a liberal education based upon the Christian religion and permeated by a Christian spirit. Its original scope was that of a school for the education of ministers of the gospel.

But at the third annual convention of The United Danish Evangelical Lutheran Church in America, held at Hutchinson, Minn. in 1899, it was decided to unite the two official schools of the church, the College at Elk Horn, Ia., and Trinity Seminary at Blair, Nebr.; thus making the aim of this school not only to prepare young men for the ministry, but also directly or indirectly to train young men and women for other professions and occupations.

Its courses of instruction are according to approved models, and qualitatively the institution aims to be in the front rank. The English language is used as a medium of instruction, except in Danish language, history, and literature and most of the theological branches, nevertheless Danish naturally occupies a prominent position in the curriculum of Dana College and Trinity Seminary.

The location leaves little to be desired in accessibility, healthfulness, and beauty of its surroundings.

It is the object of those in charge to throw about the student all forces that favor a healthy and harmonious physical, mental, and moral development.

DEPARTMENT OF STUDY.

Dana College and Trinity Seminary comprise the following departments of study:

- I. The Academic School.....Four Year Course
- II. The College.....Four Year Course

DEN TEOLOGISKE AFDELING.

Trinitatis Seminarium er den ælste teologiske Skole blandt Danske i Amerika. Dets Kursus er treaarigt og har til Hensigt at give saadanne unge Mænd, som af Hjertet bekender sig til den lutherske Kirke og har tilegnet sig tilstrækkelig Fordannelse, en saa grundig og omfattende teologisk Uddannelse, at de med Forstand og til Velsignelse kan beklæde Lære- og Prædikeembedet i den lutherske Kirke i Amerika. Undervisningen gives dels paa Dansk, dels paa Engelsk og tilstræber at sætte Studenterne i Stand til at forkynde Evangeliet paa begge de nævnte Sprog, fordi disse Sprog tales og bruges i det Land og paa den Missionsmark, hvor de skal arbejde.

PLAN OVER DET TREARIGE KURSUS.

Desuden øves Studenterne i Udarbejdelsen af Afhandlinger i de forskellige Fag.

Skolen forbeholder sig Ret til at ændre og forøge dette Kursus efter som Nødvendigheden maatte kræve.

Som Lærebøger benyttes:

Den hellige Skrift paa Dansk og Engelsk; det ny Testament paa Græsk (Gebhards Udgave af Tischendorfs Tekst); Kommentarer: Til det gamle Testament: Keil & Delitzsch og Lange; til det ny: Schat Petersen, Rørdam og Godet.

H. Martensens Dogmatik. Som Haandbøger anbefales: Luthardts Compendium og H. Schmidt: Doctrinal Theology of the Ev. Luth. Church, samt Konkordiabogen.

Som Lærebøger i Kirkehistorie bruges Fr. Niensens Kirkehistorie; og J. L. Neve: A Brief History of the Lutheran Church in America.

Endvidere benyttes H. Scharlings Etik, Gisle Johnsons Dogmehistorie, H. Ussings Missionshistorie, Grauls Symbolik og Vinets Pastoralteologi.

For nærmere Oplysninger skriv til Prof. S. C. Eriksen, Forstander ved Trinitatis Seminarium.

COMMERCIAL DEPARTMENT.

Students may enter this department at any time, but the best results will be obtained by entering at the beginning of the school year or at the opening of a term. Individual instruction is given to all students as they may require.

Upon the satisfactory completion of this course of study the student is granted a diploma.

BOOK-KEEPING AND ACTUAL BUSINESS.

<i>Book-keeping</i>	<i>Commercial Arithmetic</i>
<i>Actual Business</i>	<i>Civics</i>
<i>Commercial Law</i>	<i>Spelling</i>
<i>Penmanship</i>	<i>English Grammar</i>
<i>Letter-Writing</i>	<i>Debating</i>

Business is begun with a cash capital of \$5000 (College Currency). The student progresses step by step from simple transactions to complicated ones, and is taught business forms and customs, such as commercial paper, invoice, billing, lading, vouchers, discounts, securities, collections, filing devices, etc. A thorough knowledge is gained in both single and double entry bookkeeping. The student learns to do by doing.

Commercial Law. Every up-to-date business man needs a knowledge of commercial law. Special study of the subject is made under the following heads: Contract, negotiable paper, principal and agent, common carriers, bailment, partnership, corporations, wills and testaments, guaranty and warranty.

Penmanship. A legible, rapid, and elegant handwriting is very desirable to any one starting out on a business career. This end is attained by persistent daily practice under competent instructors.

Letter-writing. The student is taught business letters and forms. He is given exercises in correcting arrangements and style, and in writing letters relating to special subjects.

Commercial Arithmetic. The purpose of this subject is to train the student in the arithmetical principles and processes underlying ordinary business transactions.

Rapid Calculation. There are a thousand and one byways and shortcuts in arithmetic of inestimable value to all. We have

daily drills in shortcut processes—in rapid column addition, short methods in multiplication, division, fractions, percentage, etc.

Civics. A knowledge of this subject is invaluable to every American citizen. The Constitution of the United States, principles of government etc. are taught.

Spelling. Every business man should know how to spell correctly. We have daily drills in spelling, word study, pronunciation, and diacritical markings.

Grammar. Thorough work is given in composition, grammatical and rhetorical principles, punctuation, structure of paragraph, etc.

Debating. Regular class work is given in debating, and the literary societies furnish excellent opportunities for developing the power to think and to speak on the living questions of the day.

SHORTHAND AND TYPEWRITING COURSE.

<i>Shorthand.</i>	<i>Mimneographing.</i>
<i>Spelling.</i>	<i>Typewriting.</i>
<i>Pronunciation.</i>	<i>Grammar and Composition.</i>

The student may take either the Amanuensis or the Reporting Course. The Amanuensis Course may be completed in from five to six months. The pupil must then be able to write business letters from dictation, and also to make a neat and correct transcription of his notes upon a typewriter.

The Reporting Course requires twelve months for its completion. The pupil will then have acquired sufficient speed to enable him to report verbatim ordinary discourse. He will have practice in writing all kinds of difficult matter, and becomes a rapid manipulator of the typewriter.

The Gregg System of Shorthand is taught. This system is the easiest to learn, easiest to write, and unquestionably the most logical and legible.

Typewriting is taught by the touch system. Practice is given in writing wills, indentures, judgements, leases, contracts, correspondence in manufacturing, insurance, wholesale and retail; also instruction in carbon manifolding, tabulating, oiling and cleaning the machine, etc.

A prominent business educator said recently: "If young men could understand what it means to associate with tactful and resourceful business men, to take their dictation, to write their thoughts, to think as they think, to work to invent, to plan, to execute, in complete accord with that which is brightest and best in business life, they would not hesitate to prepare for a stenographic position."

The school aids the students completing either of the above courses in securing positions.
Gymnastics..

PHYSICAL TRAINING.

A commodious gymnasium furnishes excellent accommodations for physical training. It contains good modern accommodations.

The courses offered should produce the following results: better health, a stronger and a more symmetrically developed body. A frail body is a poor servant of the mind. A normal physical basis for the mental faculties is necessary for the best mental growth.

All students are required to take gymnastics, except when excused for special reasons. Before entering the classes each student must take a physical examination. Those who are physically defective are given exercise adapted to their needs.

The College has good tennis courts and base ball grounds. In pleasant weather these afford good opportunities for outdoor recreation. Athletic contests are held every spring.

PENMANSHIP.

The system used gives movements leading to easy and graceful execution and form. Legibility, rapidity, and beauty are the ends sought.

DRAWING

is taught in several departments of the school. The course includes plain constructive and geometrical drawing—from objects and memory; perspective, both linear and aerial; and art drawing—with and without models.

THE MUSIC DEPARTMENT.

This department offers comprehensive courses in vocal, instrumental, and theoretic music. The arrangement of the courses secures a complete mastery of the branches undertaken, and cultivates in the student a high standard of musical taste.

The aim is to make this a real musical education. The methods are the same as used in the famous conservatories of the East, while the expenses are not more than one third as great. The department trains teachers, organists, choirleaders, and music lovers in general.

Free instruction is given in choir and chorus work; private lessons extra. Piano rent is two dollars per term; Reed organ one dollar.

COURSES OF INSTRUCTION.

- | | |
|-------------------|--------------------------------|
| 1. <i>Piano.</i> | 4. <i>Voice Culture.</i> |
| 2. <i>Organ.</i> | 5. <i>Musical Composition.</i> |
| 3. <i>Violin.</i> | 6. <i>History of Music.</i> |

Piano. 1. Finger exercises, scales and rudiments of music. Easy sonatinas and thorough practice in major and minor scales. 2. Studies in position, tension, motion and touch. Chords and arpeggios. Sheet Music. 3. Study of musical terms. Accent and Expression. Sight reading. Memorizing and phrasing. Transposition. Music from the best composers.

Organ. Explanation of pitches, of stops, choir and accompaniments. Marches, voluntaries and studies of the best composers.

Voice Culture. 1. Lessons in breathing. Voice and tone production. Intervals. Drills and Diatonic Scale in slow movement. Easy songs. Sight reading. 2. Lessons in major and minor intervals. Arpeggios. Chromatic Scale. Ballad. Classic writers, and Sacred music.

Elementary Singing. A class for instruction in general singing will be organized at the beginning of the Winter Term, open without charge to all students.

The College Chorus. Students who are well advanced in the rudiments of music are admitted to the College Chorus without charge. Drills in chorus work, glees, and oratorios will be given. The Chorus will render public recitals from time to time.

Dana College Glee Club is an organization comprising eight of the best male voices in the school. The singers are selected from the advanced class only.

Elocution is considered now-a-days an absolute requisite for a finished education. For this reason the school has made arrangements for a very thorough course in this accomplishment.

The following subjects are taught:

Vocal culture, articulation, inflection, quality of tone, pitch, force, time, volume, power, pronunciation, study of recitations, gestures, oratory, etc.

HØJSKOLEN.

Religion. Det er Skolens Formaal at øve kristelig Indflydelse paa de unge, der samles her. Derfor ledes hele Undervisningen i en kristelig Aand, og det er vort Haab, at mange unge maa faa aandelig Velsignelse under deres Ophold her.

Da det er en Kendsgjerning, at den dansk-amerikanske Ungdoms kristelige Undervisning og Oplysning er meget mangelfuld, vil Skolen gerne raade Bod derpaa ved at give saa megen Undervisning i Bibelkundskab og kristelig Lære som mulig for de Elever, som maatte føle Lyst og Trang dertil.

Dansk Sprog. Blandt de Kundskabsfag, som Højskolen arbejder med, indtager det danske Sprog den fornemste Plads. Vi anser det for at være af største Betydning, at Ungdommen bliver i Stand til at behandle Modersmaalet med Færdighed, og at Lysten vækkes hos den til at faa Del i den Skat, som den danske Literatur har i Eje.

Og skal vi beholde Ungdommen i vor danske Kirke, maa den i større Maal end hidtil sættes i Stand til at modtage aandelig Paavirkning paa Modersmaalet. Thi det er en Erfaring, man meget ofte gør; at ligesom de allerfleste, der indvandrer hertil, kun naar til at bruge det engelske Sprog i meget ringe Udstrækning, saaledes lærer deres Børn kun meget ufuldkomment Faders og Moders Sprog at kende. Her har Højskolen en vigtig Opgave.

Engelsk Sprog. Næst efter Dansk anses det engelske Sprog for det vigtigste for Højskoleleven. Der undervises paa det grundigste i engelsk Læsning, Stavning og Grammatik. Disse Fag er absolut nødvendige for en fuldstændig Forstaaelse af Sproget. Foruden disse Fag arbejdes der med engelsk Stil for at indøve Eleverne i Sprogbrugen og Retskrivningen. Saadanne, som nylig er kommen til Landet, vil her kunne lære det engelske Sprog. Undervisningen ledes af Lærere, der har mange Aars Erfaring i at lære Begyndere at tale, læse og skrive det engelske Sprog.

Historie og Literatur. Da vi anser det for et værdifuldt Led i et Menneskes Udvikling at have Forstaaelse af Historie og Literatur, betragter vi Arbejdet hermed som Højskolens fjerde Hovedopgave. Særlig lægger vi Vægt paa at føre de unge ind i Danmarks og Amerikas Historie og Literatur.

Bibelklasser vil altid forefindes for saadanne, der har Lyst og Tid til at deltage.

GENERAL INFORMATION.

ACCOMMODATIONS.

The Residences. The gentlemen's and ladies' dormitories are conveniently located. The rooms are heated by steam and lighted by electricity. Each is furnished with bed and mattress, table, and chairs. Comforters and other bedclothing must be furnished by the students. Those desiring to room alone will be charged extra for heat and light.

The Boarding Hall is conducted by the school for the purpose of meeting the requirements of the students in the best manner. The board is wholesome and abundant. The teachers residing in the school eat from the same table with the students.

The Library. During the year the library has been enlarged by the addition of quite a number of reference works in the department of literature, theology, history, economics, and sciences.

Connected with the library is a reading room. In it the leading publications in the English, Danish, and German languages are found, as well as many local papers.

Contributions to the library are earnestly solicited. They should be sent to the Librarian of Dana College and Trinity Seminary.

The Laboratory is equipped with the apparatus necessary for class experiments and the individual work of the students

EXPENSES.

The school year comprises 35 weeks. The total expenses of a student for tuition, board, heat, and room is \$4.00 per week or \$16.00 per month of four weeks, payable in advance. A reduction is given students paying full rates and attending the whole year. The total expense for the whole year is \$140.00 From this sum the reduction of \$10.00 is made, provided the rules for advance payments are complied with. To this should be added the cost of the student's own washing and also the cost of books, stationery, etc. Students paying for tuition only are charged \$40.00 for the year.

For light each resident student will be charged 15 cts. per month.

REBATE ON TRANSPORTATION.

Students living more than 200 miles from Blair, and who shall stay at least 16 weeks, will be entitled to a rebate of one half the distance over and above 200 miles, coming to school. Take receipt from station agent, stating distance and amount paid.

GRADUATION AND DEGREES.

Diplomas are granted in all departments upon having passed satisfactory examinations.

MORAL TRAINING IN THE SCHOOL.

This is a Christian school and every effort is made to care for the moral and spiritual welfare of all the students. A high moral culture is secured by a thoroughly Christian management. A pleasing unanimity of action pervades the entire atmosphere, and Christian love and obedience do for the school what severe rules never accomplish.

PUBLIC WORSHIP.

Chapel service, which all students are expected to attend are held each school day morning.

CHURCH AND RELIGIOUS SOCIETIES.

As this is a Lutheran school, all students are expected to attend regularly the local church of the United Danish Evangelical Lutheran Church, provided no other preference is stated to the president.

COLLEGE SOCIETIES.

There are several regularly chartered literary and religious societies in the school. These are all in a flourishing condition, and in their way do much towards making college life pleasant and profitable.

THE DANA COLLEGE HESPERIAN

is exclusively English. Its bi-weekly programs comprise music, debate, and literary exercises. Special programs are rendered from time to time.

DANNEBROG,

as indicated by the name, is a Danish society. Its aim is to cultivate a taste for Danish literature and song. Like its sister society, "Dannebrog" gives bi-weekly programs comprising song, literary work, and debate.

STUDENTERFORENINGEN

is a religious society. It holds weekly devotional meetings to which all students are cordially invited.

TRIN. SEM. HEDNINGEMISSIONSFORENING

is a society, organized with a view of furthering the foreign missions of our church. During the past year it gave \$140 to these missions.

THE ATHLETIC ASSOCIATION.

The Dana College Athletic Association has been chartered by the Faculty to play tennis, base ball, hoop ball, basket ball, and such other games as shall prove of benefit to the members of the association.

ENDOWMENTS AND BEQUESTS.

The school authorities cannot but rejoice in the progress of the school during the eight years of existence as Dana College and Trinity Seminary.

Good work has been done in every line, and friends of the

school are beginning to look forward to a time when a grateful people and church will appreciate more fully the work their school is doing for them, and more liberally than now lend encouragement and aid.

The following is a form of bequest which may be used by persons desiring to leave property or money to the College:

I give, devise, and bequeath to the Board of Trustees of Dana College and Trinity Seminary, an institution of learning established by The United Danish Evang. Luth. Church in America, and located at Blair, Washington County, Nebraska, the sum of Dollars, (or if real estate, give description of the property) for the general uses of said college.

All funds for the institution should be sent to the President

TO PROSPECTIVE STUDENTS

and particularly to our Danish Youth in America are the following words addressed:

It is in your interest to attend the institution that can do you most good, that is best able to aid countrymen in overcoming the perplexities so often handicapping young foreigners in this country, that fits them for the highest success in life, and does in its power to attain the same.

We believe Dana College and Trinity Seminary is that institution. Those in charge of the school are devoting their entire life to the culture of the Danish people in America, will leave nothing undone to have this school retain its reputation as the Leading Danish School in America.

GENERAL HINTS.

The school year begins September 29th, and is divided into three terms: A Fall term of 9 weeks, a Winter term of 9 weeks, and a Spring term of 10 weeks.

If you should wish information not given in this Catalogue

address the President, and he will cheerfully advise you on any point of mutual interest.

While the faculty urge the importance and advantage of students entering the school at the beginning of the school year or at the opening of a new term, yet admission may be had, at any time, to such classes as will meet their personal needs

CATALOGUES

will be sent free on application to the President, C. X. Hanson, Dana College, Blair, Nebr.
