## GENERAL STATEMENT

Dana College and Trinity Theological Seminary is owned and supported by the United Danish Evangelical Lutheran Church in America. It is a denominational institution and as such aims to serve, primarily, the interests of the Lutheran Church, but its doors are open to all who desire a liberal education based upon the Christian spirit. Its original scope was that of a school for the education of ministers of the Gospel.

But at the third annual convention of the United Danish Evangelical Lutheran Church of America, held at Hutchinson, Minnesota, in 1899, it was decided to unite the two official schools of the Church, the College at Elk Horn, Iowa, and the Trinity Seminary at Blair, Nebraska, thus making the aim of this school not only to prepare young men for the ministry, but also directly or indirectly to train young men and women for other professions and occupations.

Its courses of instruction are according to approved models, and the instruction is of the first rank. The English language is used as a medium of instruction except in Danish language, history, and literature and some of the theological branches.

The location leaves little to be desired in accessibility, healthfulness, and beauty of surroundings.

It is the object of those in charge to throw about the students such forces as favor a healthy and harmonious physical, mental and moral development.

COMMERCIAL DEPARTMENT

*College Course*

It has long been recognized by the commercial world, that a mere knowledge of Bookkeeping, Shorthand, and Typewriting is not sufficient to enable the

bookkeeper or stenographer to avail himself of the opportunities of advancement that come to him in the regular course of his work. For this reason a high school education is required for entrance with a view to graduation from the department.

Students without a high school education may pursue a course in bookkeeping but are not entitled to graduation.

It will be noted that the courses are so arranged that the stenographer will have sufficient knowledge of the principles of bookkeeping to enable him to keep any records that may be required of him as such; and that typewriting is required of the bookkeeper, which is very essential, especially in offices where a stenographer is not employed.

A charge of \$1.00 per month is made for typewriting to cover repairs.

*The Boarding Hall* is conducted by the school for the purpose of meeting the requirements of the students in the best manner. The board is wholesome and abundant. The teachers residing in the school eat from the same tables with the students.

*The Library.* During the year the library has been enlarged by the addition of a goodly number of reference works in the departments of Literature, Theology, History, Economics and the Sciences.

Connected with the library is a reading room. In it the leading publications in the English and the Danish language are found, as well as many local papers.

Contributions to the library are earnestly solicited. They should be sent to the librarian of Dana College and Trinity Seminary.

The laboratory is equipped with the apparatus necessary for class experiments and the individual work of the student.

The school authorities cannot but rejoice in the progress of the school during the twenty-two years of existence as Dana College and Trinity Seminary.

Good work has been done in every line, and friends of the school are looking forward to the time when a grateful people and church will appreciate more fully the work their school is doing for them and more liberally lend encouragement and aid.

The following is a form of bequest which may be used by persons desiring to leave property or money to the College.

DANA COLLEGE

give description of the property) for the general uses of said college. All funds for the institution should be sent to the president.

TO PROSPECTIVE STUDENTS.

and particularly to our Danish youth in America are the following words addressed:

It is to your interest to attend the institution that can do you most good, that is best able to aid countrymen in overcoming the perplexities so often handicapping young foreigners in this country, that fits them for the highest success in life, and does all in its power to attain the same.

We believe Dana College and Trinity Theological Seminary is that institution. Those in charge of the school are devoting their life to the culture of the Danish people in America, and will leave nothing undone to have this school retain its reputation as the leading Danish school in America.

GENERAL HINTS.
